

Graduate Career Services Agreement

INTRODUCTION

Welcome to our Career Services team! We are so excited that we get to guide you on this final step of your journey with HyperionDev. You will have 90 days to complete this Graduate Program, but you are welcome to go as fast as you like. Let's have a look at what's in store:

STEP 1: Technical Readiness

In this step, your Talent Advisor will make sure that you are ready to take on prospective interviews. You will learn things like:

- How to dress for an interview
- General interview etiquette
- How to ace a technical interview
- How to ace a culture-fit interview

You will also get help with:

- Polishing up your CV
- Creating an online profile on our Careers platform
- Updating your LinkedIn profile
- Working on and tidying up your GitHub profile

By the end of this step, you should have completed the following:

- ☐ A Careers Service group onboarding session where you will learn:
 - ☐ How to get started
 - ☐ What is required of you
 - ☐ What you can look forward to
- ☐ A 1:1 career consultation where you will focus on:
 - ☐ CV
 - ☐ Online profile
 - ☐ LinkedIn profile
 - ☐ GitHub portfolio
 - ☐ Personal webpage (if applicable)
- ☐ A 1:1 mock interview where you will put your technical knowledge to the test in an interview setting

STEP 2: Alumni Network

The HyperionDev Alumni Network comes with a great opportunity for you to engage with past students, mentors and the Careers Services Team at HyperionDev to further build on tech industry knowledge and skills to take your career to new heights.

During this step of your journey, you will be introduced to members of our Alumni Network and work closely with your Talent Advisor and Alumni Coordinator. These engagements will be through meet-ups where you will be able to:

- ❑ Network with other developers
- ❑ Receive the latest tech industry news
- ❑ Engage in tech industry discussion forums
- ❑ Be paired with older graduates and/or mentors inline with your skills, experience and career progression

These meet-ups and discussion forums will be made available via the following communication streams:

- ❑ LinkedIn Alumni Group
- ❑ Discord and Discourse Alumni Forums
- ❑ Google Meets

We encourage a supportive network of Alumni, where older graduates share knowledge, advice and expertise with newer graduates.

In addition, you will have exclusive access to this lifetime, free and valuable resourceful network.

STEP 3: Introduction to the Industry

In this final step, you will be introduced to the tech industry through exclusive local networking events. These events will allow you the opportunity to network with like-minded individuals, as well as leaders in the industry and potential employers in nationally-recognised tech companies. Flex your networking and interviewing skills you've learned thus far in this 90-day programme at these key events.

You will also be added to an exclusive HyperionDev Affiliate Alumni LinkedIn group and we will be able to endorse you as such — you will be considered an ambassador for HyperionDev!

The Agreement

In order to take part in this service, please read the following agreement carefully. If you are happy with this, please sign and return this agreement to your Talent advisor before your onboarding session.

I, _____ have read and understand the services offered to me by the HyperionDev Careers Service. I acknowledge that this is not a job guarantee, as the purpose of this service is to make me industry-ready and help me network with others in the tech industry. I also understand that I have 90 days to complete the three sections of this service, after which I will have to pay a small fee to re-enroll.
